

Organisational Development Procedure's is more in keeping with business consulting. Rather than a program, this is a process that synthesizes an organisation so that it can operate at its peak in terms of efficiency, proficiency, productivity and performance.

Organisational Development Procedures is a process that is designed to fine tune and enhance the performance of an already effective business or organisation.

These Procedure's Include :

- \* Workplace Organisation
- \* Streamlining Operations
- \* Lean Manufacturing
- \* Systematizing Specific Business Practices

These procedures when implemented will streamline operations, minimise restrictions and constraints whilst at the same time simplify the daily operational procedures whilst increasing business efficiency and productivity !

Conscious Access International conducts seminars for specific and non-specific groups and associations.
